What is this type of insurance? This product is a usage based telematics car insurance policy with comprehensive cover. You purchase a set amount of policy kilometres at inception (up to 16,000km). A telematics box will be installed to your car which will record data on how your car is being driven. If your driving data shows you are a safe driver we will reward you monthly with bonus kilometres (up to 300 per month). If you exceed your policy kilometres, you can also purchase top up kilometres. You will get access to a portal called 'rate my drive' so you can log in and check how you are driving.
